Abstract : Linux Operating system is used in everywhere like in cars, smart phones, home appliance etc. [1] Before the platform to run desktops, server across the globe, it was the most secure, reliable, easy to use operating system. It is the most popular version of UNIX Operating System. Linux is open source OS, its code is free and it means that anyone can use it or modify the OS according to his / her requirements.

Kiran

Abstract-Augmented reality apps are written in special language that connects the real world to the digital world. Augmented reality can be used in machine version, object recognitions and gestures recognition technology. Virtual Reality, Virtual means something that exists but not in reality. This can ease the living of the mankind and helps them to meet with virtual world. The coming years will create a spatial of AR and VR for humans adaptations.

1. Plex VR Application Review

Plex application developed by Plex, Inc now performs virtual reality. The media center app launched app for Google's Daydream virtual reality (VR) headset which gives users the ability to browse and watch TV shows & movies in virtual reality in a virtual theater and menu and also join friends for co-viewing sessions. It is Genuine Delight to Use, it is standalone app built for Google Daydream that gives you. The default space is a luxury penthouse apartment with a coffee table, covered in cups, popcorn bowls, and plates. You can pick up each of these and throw them around the room. There's no point to this, but it's fun, especially if you feel like throwing popcorn at a bad movie. The social setup includes a friends list with online status similar to PlayStation or Xbox Live, although of course, you can appear offline if you rather sit down for a solo session Point and click to play etc. Just you'll need an android phone compatible with Google DayDream. So, Just grab the separate Plex VR app, sign in, and get watching!

2. HOW TO MAKE AN ATTRACTIVE POWER POINT PRESENTATION

1.USE LAYOUT TO YOUR

ADVANTAGE Most western language read left To right, top to owing This natural reading order, you can direct people's eyes in a deliberate way to certain key parts of a slide that you want to emphasize.

2.DON'T USE THE STOCK POWERPOINT THEMES.

The built in PowerPoint themes are too bland and overused to stand out from the crowd.

3.DON'T CREATE CLUTTERED SLIDES.

Slides that are packed from edge to edge with content can overwhelm your audience and obscure your point.

4.DON'T OVERDO IT WITH ANIMATIONS. Too many boxes or objects flying off and on the slide will distract the audience from your message.

It's better to keep your animations Simple.

- 1. Rated one of the best "Made in India" apps by Apple in 2014.**
- 2. Recognised by the Govt. Of India- Ministry of Health and Family Welfare.**

4. Successful mantras

Everyone aspires for success. Have you ever felt that it comes more easily to some than to others? Perhaps it's time for a new perspective.

Forget Luck, Live by Intent - A few things may happen by chance. But if you wait for the chance, good things will happen to you only when you are in your grave because things may take their time.

Stop Fixating on Failure- For a committed man, there is no such thing as failure. If you fall down 100 times in the day, it is 100 lessons learnt.

Work with Clarity- What a human being needs is clarity, not confidence. If you want to walk through a crowd of people, if your vision is clear and you can see where everybody is, you can just walk through the whole crowd without touching anyone.

Embrace the People and Things You Dislike- To handle different kinds of situations in our lives, we need different kinds of identities.

Drop Your Calculations - There is no need to aspire to greatness. If you make the focus and ambit of your life well beyond the concerns of who you are, you will anyway be a great human being.

Yoga For Success - There is a higher level of neuronal regeneration, and memory and intellectual sharpness also improve.

Be Equanimous and Exuberant - Equanimity gives you access to different dimensions of the mind. If there is no equanimity, your ability to use the mind is greatly reduced.

Tune Up Your Insight - Mediocrity can be transformed into extraordinary activity, only when there is a deep insight into something.

Find Your Inspiration - Every action that human beings perform is a contribution to some dimension of this world.

Set the Gold Standard in Integrity - Integrity is important because when you want to function in the world, how much trust you generate with the people you interact with determines how easy or hard your daily efforts will be.
